Wirenetting Industries

Sanjivani Wirenetting Industries

Founded in 2016, Sanjivani Wirenetting Industries is a fast growing company with new technology and excellent client service. We are a new and dynamic company, working in the industry as a manufacturer and supplier of a wide range of Wire Mesh, Vibrating Screen Cloth, Crimped Wire Mesh, Perforated Sheet and others. All these products are available in rolls, cut circles and fabricated filters. Our wire mesh is particularly used in wire cloth weaving because of its exceptional tensile strength. This mesh is also resistant to rusting and oxidation at high temperature. We are a specialized company, giving appropriate client service that includes customized orders. We have a mission to perform consistently and provide exceptional products to our clients. The increasing competitiveness in the market has led to a greater quality consciousness among companies, and as a young company, we understand the situation. Therefore we have made appropriate development for our business. Our overall business operation is properly managed by a single quality management system that is to say; we have implemented a standard quality protocol in every process that includes production, warehouse storing, packaging, delivering and others. This has imparted a greater accountability in the market. .

Our Product Range

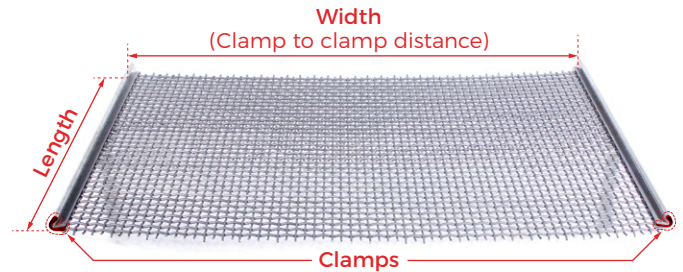

Sanjivani Wirenetting Industries has a wide range of products used in the civil industries, stone crushers, architectural fabrications. Since 2016, we had been manufacturing the mesh as per customers' demand and specifications. We use different resiliant materials for manufacturing the meshes and offer the same with their desire apperture size. Our products ranges are mentioned below.

- Vibrating screen
- Woven wire/ Crimped mesh
- Perforated sheet
- Chainlink fences
- Mosquito mesh

Vibrating Screen:

We offer wire screen used in vibrating screen machine. We provide screen with clamp of various sizes as desired by the user.

Aperture:	1.5mm to 125mm aperture
Wire Dia.:	1.0mm to 12mm
Material:	Spring Steel Grade-1, Stainless Steel Grade 304 (Quarter Hard)

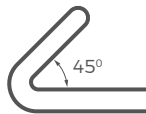

Clamp types for the screen

45° or V-Clamp

45°/V-Clamp

Clamp Raw Material:	1.6mm thick Tata CRC sheet upto 6mm wire diameter 2.0mm thick Tata CRC sheet above 6mm wire diameter
---------------------	---

Woven Wire Mesh:

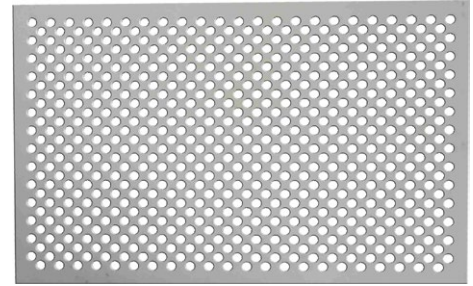

Wire mesh is primarily used as industrial filters in applications of filters, strainers, baskets, sieves and separators. Wire mesh are readily available in the form of rolls, cut piece, round discs and can also be customized as per requirement. Plain weave, Twilled weave, plain Dutch Weave & Twilled Dutch Weave are the different types of weave.

Aperture:	1.5mm to 125mm aperture
Wire Dia.:	1.0mm to 12mm thick wire diameter
Material:	Spring Steel Grade-1, Stainless Steel Grade 304 (Quarter Hard)

Perforated Sheet:

Perforated sheets are widely used in crusher industry for the stone and mineral ore separation. The offered range of stone crusher perforated sheet is manufactured utilizing the high grade raw material.

Aperture:	3mm to 80mm hole diameter
Plate Thickness:	3mm to 10mm thickness
Material:	Mild Steel Sheet(M.S. Sheet), Stainless Steel Sheet or as per requirement

Chain Link Fence:

A chain link fence is a type of woven fence usually made up of galvanized wire. The wires run vertically and are bent into a zig-zag form. They are generally used for defining boundaries, livestock farm fencing as well as security purposes.

Opening:	25mm to 100mm
Wire Dia.:	16 gauge(Min) to 8 gauge(Max)
Material:	Galvanized wire (Raipur, Tata or as per requirement)

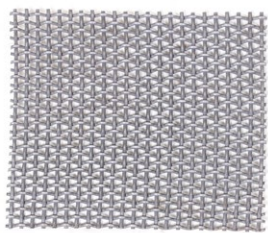

Mosquito Mesh Screen:

Mosquito mesh is generally used for windows and doors. The screen will allow fresh air in while keeping out flies, wasps, bees and mosquitoes. It is suitable in houses for kitchens, bedrooms, bathrooms as well as for office use.

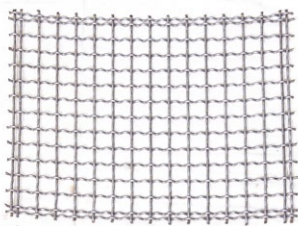

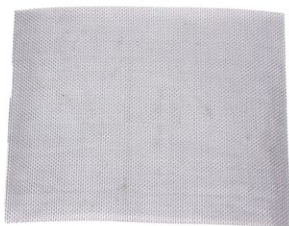

Opening:	14 mesh, 16 mesh, 20 mesh (as per requirement)
Wire Dia.:	0.30mm to 0.45mm thick wire diameter
Material:	High grade Aluminium wire, Stainless Steel wire
